

## Theoretical and practical course in protein biochemistry, biophysics and structural biology – Survey

Your feedback is important – please complete this **anonymous** survey about your experiences of the course. Your answers will be used in reporting to our grant funding bodies and to improve the course for next time.

Number of lectures

Too many

Just right

Too few

Content of the lectures

Too complex

Just right

Too simple

Pace of the lectures

Too fast

Just right

Too slow

Number of practical sessions

Too many

Just right

Too few

Content of the practical sessions

Too complex

Just right

Too simple

Number of computer labs

Too many

Just right

Too few

Content of the computer labs

Too complex

Just right

Too simple

Reason for taking the course

Please number from 1 (most) to 3 (least) the topics you wanted to learn on the course

\_\_\_ Protein expression/purification

\_\_\_ Protein interactions/biophysics

\_\_\_ Structural biology

Would you recommend this course to a colleague?

Definitely yes

Maybe

Absolutely not

What is one topic you think we should spend **more** time on in the course?

What is one topic you think we should spend **less** time on in the course?

What is one other thing we could do to improve the course?
